One platform for every customer conversation

Everything you need to reach customers on WhatsApp and Instagram, answer them fast and turn chats into sales. The full platform is available from day one.

WhatsApp Business API
Connect your number to the official Cloud API and start messaging customers in minutes.

Instagram DM automation
Turn comments on posts and reels into conversations and captured leads.

Chatbot flows
Design customer journeys on a visual canvas. Bots answer first, people take over when needed.

Broadcast campaigns
Send approved templates to opted-in contacts with scheduling and live delivery tracking.

Shared team inbox
Your whole team replies from one number, with assignments, notes and full history.

Catalog and orders
Show products inside WhatsApp. Two-way sync with your Meta catalog, payment links included.

Drip sequences
Timed follow-ups after a signup, enquiry or purchase. Stops when the customer replies.

Analytics
Delivery, read and response rates by campaign, plus Instagram insights.

Wallet and billing
Recharge online. Every message cost is deducted transparently and logged.

API and webhooks
Send messages from your own software and receive replies through signed webhooks.

A CRM that speaks your business

Pick your industry and Fluxx CRM sets up the right records, fields and sales pipeline. Leads from WhatsApp land straight on your board.

Fluxx CRM, inside FluxxChat

Not a separate tool to learn. Your leads, tasks and WhatsApp chats live together, so nothing falls through.

- Lead board with drag and drop stages
- Automatic tasks and WhatsApp follow-ups
- Add a chat to CRM in one click
- Follow-up tasks with due dates
- Reports by source and team member
- Each record linked to its contact

READY-MADE INDUSTRY PACKS

Textile
Buyer enquiries, samples, price quotes and orders.

Real estate
Enquiries, site visits, negotiation and bookings.

Education
Admission enquiries, demo classes and enrolment.

Hospital and clinic
Patient enquiries, follow-ups and recalls.

Industrial
RFQs, quotes and purchase orders.

Solar
Site surveys, proposals and installations.

START IN THREE STEPS

01

Connect your number

We help you link your WhatsApp number to the official API and verify your business.

02

Get templates approved

Create message templates and track Meta approval from your dashboard.

03

Launch and automate

Send your first campaign, switch on the chatbot and let the follow-ups run.

Built to help you win more customers

From the first message to the final order, FluxxChat keeps every conversation moving, so your team can focus on closing.

01

Never miss a lead

Comments on your reels and messages at 10 pm get an instant reply, so interested people do not go to a competitor.

02

One tool instead of five

Inbox, campaigns, chatbot, catalog, CRM and Instagram automation in one place, with one login for your whole team.

03

Follow-ups that run themselves

Automatic tasks and WhatsApp follow-ups after every stage, so no enquiry goes cold.

04

Made for Indian businesses

Industry packs and flows built around how Indian businesses sell, with support from a team in Coimbatore.
